Network Map

Dedicated to your growth

PROUD TO BE YOUR PARTNER

These maps will take you on a journey of our UK-wide network and data centre footprint, detailing how our recent infrastructure investments have delivered high-bandwidth, high-availability connectivity to an increasing number of businesses.

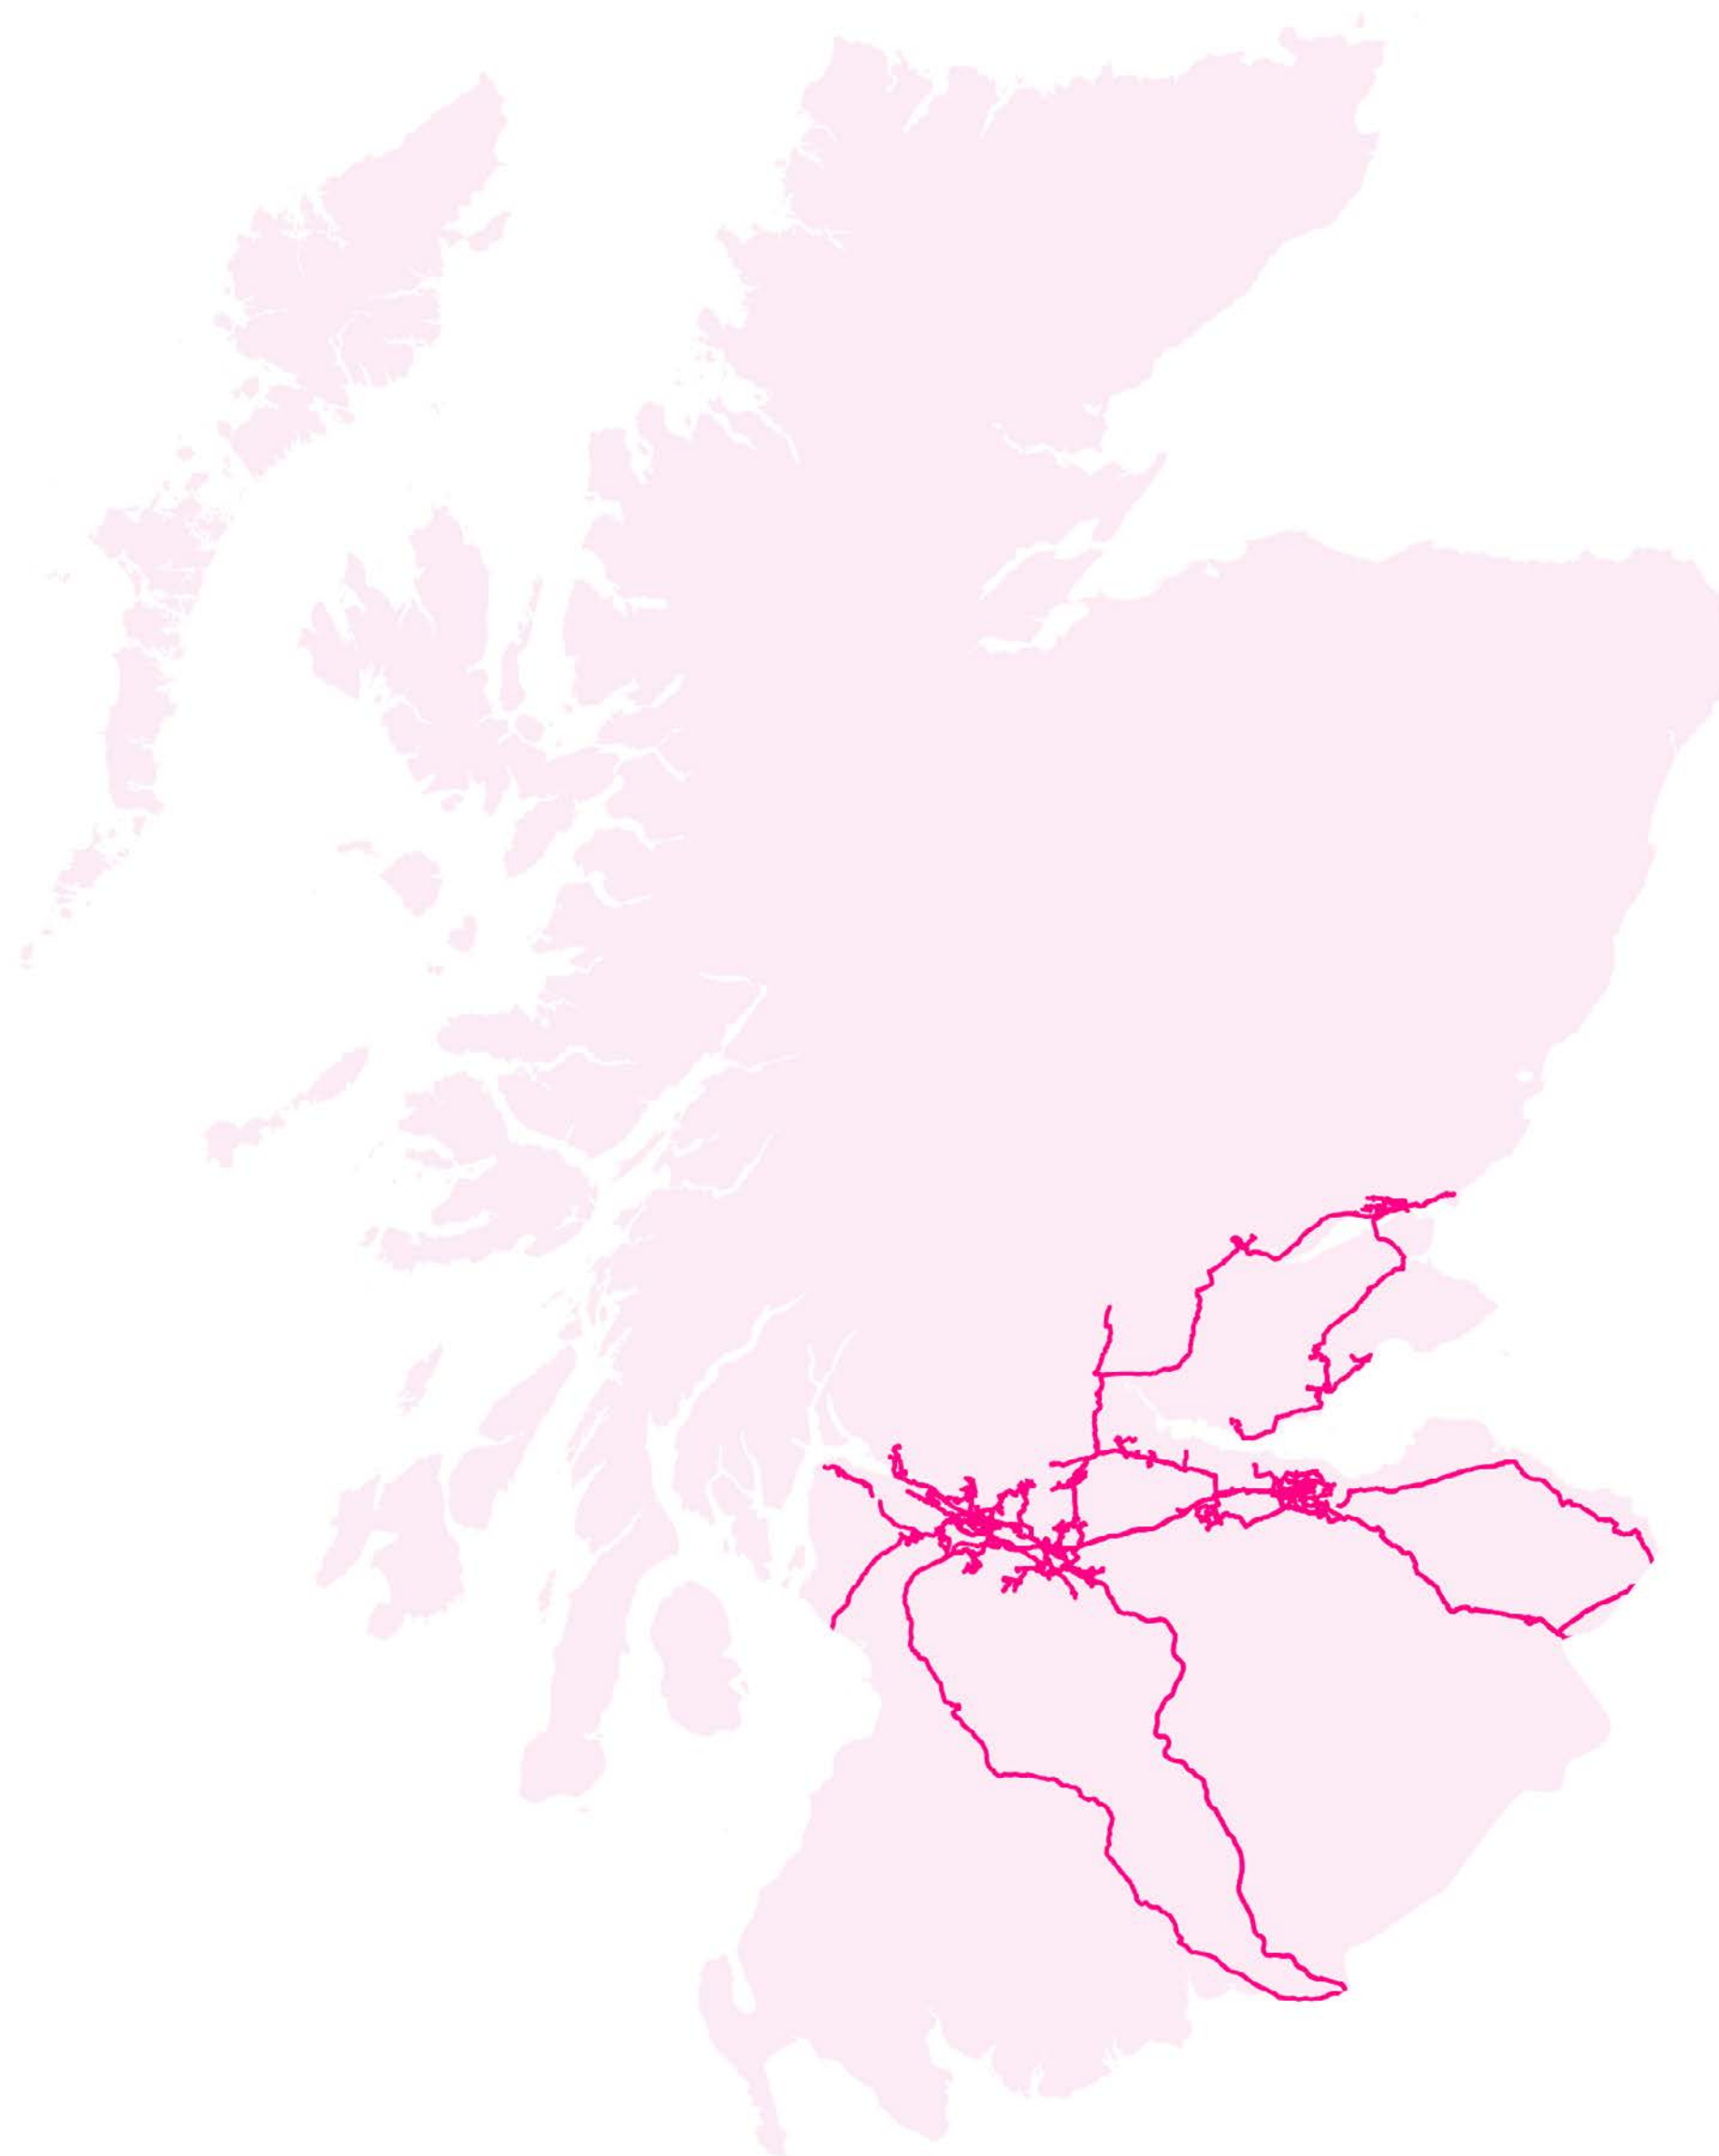

-  **190,000+ km**
of fibre distance
-  **336 VM PoPs**

Our Wholesale services

Product	Configuration	Coverage	Max bandwidth	Scalability	Service types	Performance	Security
Dedicated Internet Access	Dedicated fibre connectivity to the Internet	National availability, national reach, on and off-net	10Gbps	Fractional bandwidth increments up to bearer size MTU 1518	Internet only	Variable	Public un-trusted cloud
National Ethernet	Ethernet over MPLS-Point-to-point (or multiples thereof): hub and spoke	National availability, national reach, on and off-net	10Gbps	Fractional bandwidth increments up to bearer size. MTU 2036	Ethernet only	15ms one way latency SLA	ISO27001, CAS(T) Certified
Ethernet Extension	Dedicated fibre; point-to-point (or multiples thereof): hub and spoke	National availability, local access <35km, on-net only	10Gbps	Bandwidth same as bearer size MTU 9212	Ethernet only	Sub 1ms one way latency SLA Deterministic	ISO27001, CAS(T) Certified, Dedicated Fibre
National HCS	Optical network based; Deterministic; Non-switched point-to-point service	National availability, national reach, on and off-net	100Gbps	Multiple system sizes supporting multiple bandwidths MTU 10,248	Multiple	Sub 5ms one way latency SLA Deterministic	ISO27001, CAS(T) Certified
Dedicated HCS	Dedicated fibre based; Non-switched point-to-point service	National availability, local access <100km, on-net only	100Gbps	Multiple system sizes, add new services quickly and cheaply MTU 10,248	Multiple	Sub-3ms one way latency SLA Deterministic	ISO27001, CAS(T) Certified, Dedicated Fibre
Dark Fibre	Dedicated fibre; point-to-point	National availability, on-net only. Long spans of fibre can be very expensive.	Virtually limitless, determined by the equipment	Characteristics all depend upon the equipment and configuration used by the customer to terminate the fibre.			Dedicated fibre, Physical separation from other networks.
