

Smart Internet Access

Keep your organisation connected at all times with faster, more secure and co-managed internet access

Are you frustrated by the unreliability of your current internet service provider's connection?

Are you having issues with bandwidth and speeds?

Would you prefer better security or the ability to make changes to your own network?

If the answer's **yes** to any of these questions, then it's time to take a look at Smart Internet Access from Virgin Media Business.

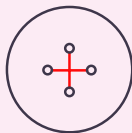

Smart Internet Access is our co-managed connectivity solution – offering your teams, secure, fast and instant access to data from anywhere on any device.

It comes with security built-in so you can operate more efficiently. And it brings together the same core and access network that supports all major Virgin Media Business customers with an enterprise-grade firewall built into the cloud managed Meraki Security Appliance. So you gain more network flexibility and security while your IT team spends less time on time-consuming admin tasks.

Fast

Expect speeds of up to 2Gbps and 99.95% availability with ultra-resilient connectivity

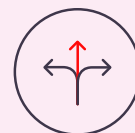

Simple

Take back control over your IT estate with the ability to co-manage your own network

Secure

Protect your employees and your organisation with an enterprise-level Meraki firewall

Scalable

Add new hardware or whole new sites whenever you like with zero touch configuration

How Smart Internet Access can help you

- With a range of access technologies and symmetrical upload and download speeds of up to 2Gbps and 99.95% availability plus fast fixes, you can be confident your people can work together effortlessly
- The cloud-based, smart Meraki Mx Security Appliance has a built-in firewall that's easy to set up and eliminates the risk of data breaches or cyber attacks
- We'll take care of the installation, monitoring and 24/7 support while you can check for network issues or make changes whenever you like via the single sign-on Meraki dashboard
- Everything from security to wifi, access points and LAN switches are visible from a single pane of glass with the Meraki dashboard accessible from anywhere
- There are plenty of options, with new features available through a licence upgrade and built-in change hours that allow you to better plan your monthly spend
- Designed for growth, the smart Meraki Mx Security Appliance allows the addition of new hardware or sites without hassle

Why Smart Internet Access from Virgin Media Business?

- **Quick and reliable connectivity** – thanks to our robust, reliable and super-fast network infrastructure
- **Enterprise-level networking** – with the same core and access network that supports our Virgin Media Customers, NHS and Government
- **Smart Internet Access** – is compatible with a range of access technologies such as Fibre Ethernet, SOGEA, FTTP and Cable
- **Backed by our UK-based Network Ops team** – all Smart Internet Access connections and networks are supported and monitored 24/7
- **Cloud technology you can trust** – with fast delivery, easy integration and automatic updates without hidden costs
- **Services tailored to you** – we'll provide access-agnostic cloud migration, flexible contracts and end-to-end managed services to match your business needs
- **A trusted partner that gets things done** – we have teams of specialist engineers working around the clock
