

CONSISTENTLY FAST, SCALABLE INTERNET ACCESS

For modern businesses of all shapes and sizes, internet access is a vital lifeline to the outside world, supporting a wide range of critical web-based services.

Consequently, ambitious businesses need more than just an Internet Service Provider. They need an agile partner that offers unconstrained connectivity geared to efficiently scale with business demand.

Dedicated Internet Access (DIA) from Virgin Media Business offers fast and instant access to data from anywhere on any device, enabling businesses to operate efficiently and effectively – all of the time. Unleash the user, partner and customer experience to help drive digital transformation.

Here's what to expect

- An expandable, personal and dedicated internet connection for your business
 - Uniform upload and download speeds, any time of the day or night
 - Super-fast speeds of up to 5Gbps
 - High quality and reliable access to business critical, high bandwidth applications
 - Superior access, for superior end user experiences
 - Monitored and managed 24/7 by a UK based BSOC
 - Resilient options and SLAs up to 99.99%
 - Full ISO 27001 security certification
-

Deliver superior online user experiences

Dedicated Internet Access from Virgin Media Business is an uncontended and dedicated connection to the internet. It means your business has uniform upload and download speeds of up to 5Gbps, so you can offer a reliable and superior user experience.

Still worrying about bandwidth intensive applications like SAP, Oracle, VOIP and video conferencing compromising performance, or having to continually upgrade your access requirements? Stop. We have you covered.

Superior levels of internet access will enable your organisation to deliver outstanding digital services to your end customers, enhancing their overall experience and in turn amplifying your brand perception and increasing levels of return business.

Keep your organisation running efficiently

DIA is an easy way to make your overall day to day business transactions – across your organisation, business partners, and customers – more streamlined and efficient.

Because we own our network, our DIA is easily expandable, giving your organisation the ability to run multiple services such as, mobile, UCC, and WiFi Cloud Connect, SIP without compromising performance.

What's more, we're investing a further £3 billion in our network, to offer customers the best and most efficient solutions for their business. As our network improves, yours will too.

One end-to-end solution provider

We know you want to keep things simple. Why deal with many service providers, when you can enjoy just one? At Virgin Media Business, we already support 8,000 managed internet connections in the UK. This is our area of expertise.

Our dedicated team of consultants will design the perfect solutions for your business, from simple internet access right through to a full end-to-end network solution. Once you're up and running, we'll provide 24/7 support, further enhancing the reliability of your internet access.

Embedded security giving you peace of mind

We want IT departments to sleep well at night, which is why our focus on security is second to none. We offer DIA in conjunction with the award-winning Palo Alto Networks' Next Generation Firewall to ensure internet security.

We can also provide access to an impressive range of services through our Virgin Media Business Managed Security portfolio, designed to keep organisations secure.

Embrace digital transformation

Seamless scalability isn't just a buzz phrase, it's a necessity. DIA is an expandable service to scale with you as you grow across multiple sites. We can also offer options to move to IPVPN connectivity.

Future proof your organisation with SMART limitless connectivity.

BUSINESS
