

VoIP services

How We'll look after You

Thank You for Your business. We'll never take it for granted. That's why We've put together this service level agreement (**sla**). It lets You know exactly what We promise to deliver as part of our Cloud Voice and SIP services You've ordered from Us. This **sla** forms part of the agreement between You and Us for services provided so, naturally, We'll fulfil what's laid out here. If We're providing You with connectivity for access to VoIP services, that part of the service is covered by the connectivity service level agreement. So You'll need to read this **sla** and that one too.

Getting You up and running

When We've taken Your order and finished planning, We'll give You a **customer promise date (CPD)**.

Our service availability promise

We pride ourselves on delivering high availability service and keeping the VoIP services up and running so You can continue with what you need to do. We've come up with a set of **service availability** targets for Our VoIP services, so You know what to expect from Us each month. So you are aware, We only measure the availability of the VoIP services platforms. The availability of the VoIP services at each of your office locations is dependent on the connectivity availability to those sites. We work out monthly **service availability** like this:

$$\frac{24\text{hrs} \times \text{days a month} - \text{Outage Time hrs}}{24\text{hrs} \times \text{days in a month}} \times 100\%$$

VoIP services	Target Availability
Cloud Voice	99.999%
SIP Trunking	99.987%
